

Platinum tickets are the best seats in the house!

The premium tickets for some of the most high-demand artists currently on tour. We also offer a great selection of packages for all the top acts which are the ultimate fan experience. The packages will include the best tickets for the show and many different things on top such as VIP experiences, hospitality packages, limited edition memorabilia and more.

These will often be tickets for sold out events and so give you a chance to keep earning commission once the standard seats have sold out. They will mainly be for music events but you will also get packages for sports events.
